

# Twintec Cable TTQ 1535S

There is an old saying that "small can also be beautiful" and this is particularly true when having to clean floors quickly and effectively in small and sometimes restricted areas.

The TTQ1535S cable machine has been expressly designed to be compact, easy to operate and exceptionally manoeuvrable when in use whilst the oversized transit wheels allow easy movement to and from any specific locations.

The cylinder power brush ensures deep cleaning performance whilst the twin water pickup nozzles either side of the brush roll permit multidirectional operation which is vitally important when cleaning narrow walkways often found in shops and food stores. With the TTQ1535S you can walk in forwards and reverse out backwards without turning and without loss of scrubbing and drying performance.

The swing steering system provides another

simple innovation that really does improve the versatility of the machine allowing full operator directional control.

*Professional cleaning performance for those tight areas and smaller applications does not come much better than this.*

Brush Motor	Vac Motor	Power	Length	Speed	Capacity	Range	Weight	Size
400W	1000W	230V AC 50Hz	350mm	50Hz=1000rpm 60Hz=1200rpm	15L	42m	38Kg	750 x 740 x 480mm

Also available in 115V/120V specification. Photographs may include extra items for illustration purposes only.
